

# Promote Environmentally Safe, Renewable Energy

Add your energy to ours and make a difference!

## The Heartland Renewable Energy Society is a Volunteer Organization

All of our activities - the Energy Solutions Tour, Workshops, Newsletter, Website, Email Lists, Presentations, and Educating, Monitoring, and Reporting of Legislative Activities - are performed by volunteers who feel strongly about the imperative of renewable energy, energy efficiency, and sensible sustainable development.

Become an HRES member  
and put your skills and  
interests to use.

We appreciate your financial support which helps HRES achieve its goal and encourage members to participate in HRES activities designed to educate consumers, businesses, and government about the benefits of renewable energy.

For more information, contact:  
Craig Wolfe, President  
info@HeartlandRenewable.org
